- Risk and vulnerability assessments
- Anti and counterterrorism consulting
- Emergency preparedness and response training and exercises
- Continuity of Operations (COOP) and emergency response planning
- Epidemiological public health monitoring
- Countering Weapons of Mass Destruction (CBRNE)

How we are different

Tier Tech International’s professional staff is comprised of long-time public servants who have dedicated their careers to our nation’s security. TTI possesses decades of experience in the physical, cyber, and human realms of security protection working in the government and military, the White House National Security Council staff, Homeland Security, Energy, Industrial, Nuclear, Emergency Services, Maritime, and National Guard arenas. Our experience in Emergency Management, Exercise Planning and Execution, Exercise Evaluation, Risk and Threat Assessment, Vulnerability Assessment, Risk and Hazard Management and CI Protection has evolved into a talented “Community of Practice” that we will bring to support every opportunity of which we are a part.

TTI prides itself on forging and maintaining lasting partnerships with other superior and qualified companies to execute every important mission our clients require. As industry leaders in

emergency preparedness and response, we take great pride in providing our clients with products and services that are professional, relevant, current and responsive.
