OUR MISSION & VISION

OUR MISSION

Tier Tech International **provides thought leadership, strategic planning support, and capability improvement** to clients who shoulder our nation's most compelling challenges. From bombing prevention and countering weapons of mass destruction to continuity of operations and geopolitical competition, our team of experienced practitioners takes problem solving to a new level.

TTI's Strategic Design Approach (SDA) focuses on one outcome – enabling our clients to succeed in high-stakes, complex environments .

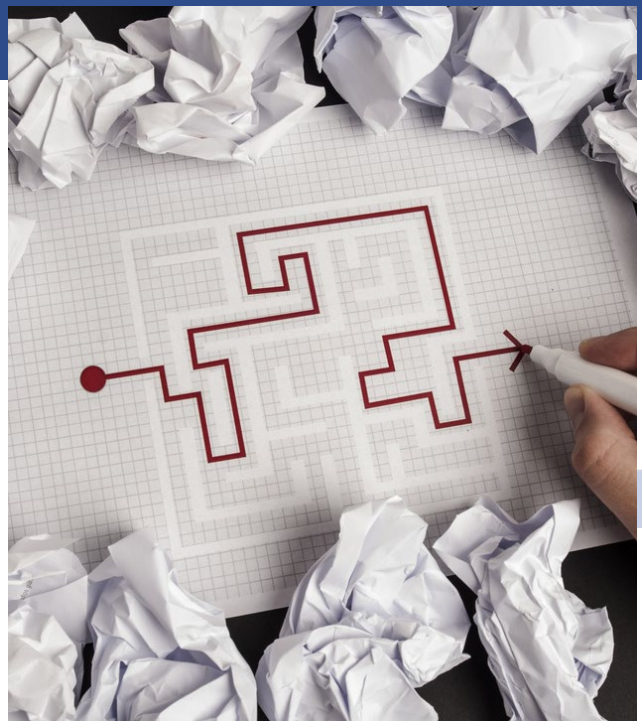

OUR VISION

TTI seeks to transform the way governments, corporations, and other leading organizations approach complex problems.

Using our distinctive experience, insights, and abilities, we believe **any solution-minded and action-oriented organization can prevail in complex environments** and against dynamic challenges to achieve their strategic objectives.

OUR CORE VALUES & CULTURE

MAKE A DIFFERENCE– A BIG DIFFERENCE

We know through hard-earned experience that a small group of focused, dedicated individuals can find solutions to – and opportunities within – complex problems where most fail or do not even know where to start.

MAKE IT LAST:

We want our work to be enduring. We build teams that include our clients and relevant stakeholders, we teach them our processes, and we coach them to secure sustainable results.

MAKE IT WORTHWHILE

We aim to deliver unprecedented value and to become an indispensable partner to our clients. We are fair, open minded, ethical, and dedicated to diversity, equity, and inclusion. We deliver well-considered, objectively derived truth that brings positive change.

WE PROVIDE CLEAR THINKING IN ENVIRONMENTS CLOUDED BY COMPLEXITY.

- ✓ **BIASED TOWARD ACTION**
- ✓ **EMPATHETIC**
- ✓ **CHALLENGE CONVENTIONAL THINKING**
- ✓ **GOOD ENOUGH, ISN'T**
- ✓ **TEAM-CENTERED**

STRATEGIC PLANNING & ANALYSIS & RISK MANAGE

Opportunity Analysis

OA is a rigorous, highly effective methodology for cross-sector analysis of the policies and strategies required to realize desired outcomes.

Option Decision Aid

ODA supports the evaluation of the utility of a given technological solution to a complex problem by employing a risk versus merit scoring methodology.

Risk Informed Opportunity Sequence

RIOS is an iterative process that blends TTI's planning and analysis capabilities with our risk management methodologies. It creates discrete, action oriented options that can be combined in a variety of ways to achieve desired outcomes.

Gap Analysis and Prioritization

GAP provides a data driven means to inform organizational strategy and priorities. It generates actionable metrics to support an organization's ability to buydown risk.

Risk Prioritization and Mitigation

RPM provides decision makers a common framework to improve unity of effort across their organization. Metrics generated by this SDA can demonstrate progress (or lack of) in risk buydown over time.

Continuity of Operations

Drawing on our cross-government experience and agile analytical processes, we provide full spectrum support to reduce program risk, maintain effective operations, and improve overall COOP capabilities.

TRAINING & CURRICULUM DEVELOPMENT

WE DO IT.
WE TEACH IT.
WE COACH IT.

Discrete workshops, large classroom gatherings, instructor led, computer based, or a combination of all of these –TTI is adept at meeting our clients' unique training needs.

Strategic Design Approach

We seek to foster a new generation of strategists and planners by teaching them how to think critically and creatively about issues, and how to craft innovative solutions in a world where traditional approaches are no longer sufficient.

Security Awareness and First Responders

Our full -service training and curriculum development team creates all your support materials in house – with hundreds of ready -made products in stock and the ability to create new, tailor -made materials on demand.

Certifications: ISO 9001:2008 proven instructional system design process / MEP and HSEEP certified trainers and planners

EXERCISE DESIGN AND FACILITATION

GOOD FACILITATION REQUIRES GOOD DESIGN

TTI has planned and executed more than 200 public-private exercises at the level of local communities and all the way up to federal inter-agency events.

REAL WORLD SCENARIOS

TTI's extensive library of scenarios is drawn from contemporary events and can be overlaid local infrastructure to provide stakeholders a realistic and relevant experience focused on emerging and priority threats.

HYBRID SUPPORT

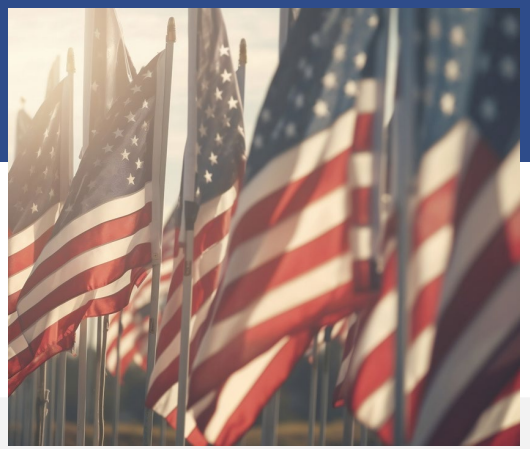

Our experienced facilitators have backgrounds as instructors and designers, which means they can adapt on the spot to provide stakeholders exactly what they need when they need it.

RIGOROUS ANALYSIS

Our SDA can serve as a vital link between day - to-day operations and exercise design, implementation, and evaluation.
